## **Introduction**

The purpose of the Elementary Discipline Code is to assist students in developing a positive attitude toward self-discipline, regular attendance and socially accepted behavior. The Elementary Discipline Code is intended to ensure that each student has the opportunity to benefit from the maintenance of a learning environment that is safe, conducive to learning and is free from unnecessary distractions.

Further, the Discipline Code serves as a communication tool between home and school and ensures that students and families are aware of District expectations. The Coatesville Area School District believes that an environment where each student shows respect for authority and peers, follows District rules and policies, and follows state and federal laws regarding conduct in school, is one in which all students can learn. Parents/guardians and students play an integral role in establishing an environment that is conducive to learning and academic success. Developing academic behaviors often requires moments of self-redirection/reflection by students, coupled with adult support and redirection. As such, the support of parents, guardians, students, and staff during times of redirection and correction is critical in the development of a learning community.

Learning is a right to which all students are entitled. No one person should be permitted to interrupt or distract from the learning of others. To this end, teachers will use the resources available to them to handle classroom engagement-related discipline problems. In instances where there is a classroom disruption, teachers will notify the parents/guardians of the disruptive student. If the efforts of the teacher do not result in appropriate the elimination of the disruptive behavior and academic re-engagement of the student, building level administrators will be asked to provide additional support.

## **Mission Statement**

The mission of the Coatesville Area School District, rich in diversity and committed to excellence, is to create innovative educational experiences which are funded by the taxpayers, supported by the community, delivered by dedicated teachers and administrators, to ensure all students will become responsible, contributing global citizens.

It is the District's hope that this document will serve as a resource for creating an environment conducive to learning and academic success.

# Adoption of Student Code of Conduct

## 1. Statutory Authority *(School Board policy No.000)*

The Board of School Directors of the Coatesville Area School District (CASD) adopted this Code of Student Conduct to detail its expectations regarding school climate and pupil conduct. All of this being followed in accordance with the Regulations of the State Board of Education; [22 Pa. Code §12.3\(c\)](#), the Board has the authority to make necessary and equitable rules governing the conduct of students in school which can be found in the “Publication of Rules” [Section 510](#) of the Pennsylvania Code.

This general authority is extended to administrators and teachers in [Section 1317 of the Code](#). This section gives school personnel *In Loco Parentis* (in place of the parent) status:

*“Every teacher, vice-principal and principal in the public schools shall have the right to exercise the same authority as to conduct and behavior over the pupils attending his school, during the time they are in attendance, including the time required in going to and from their homes, as the parents, guardians, or persons in parental relation to such pupils may exercise over them.”*

Additionally, students must understand that administrators shall have the authority to enforce other reasonable disciplinary action which they find warranted by situations not covered.

## 2. Rules of Construction.

- A. Notwithstanding anything herein to the contrary, nothing in this Code shall be interpreted in a way that violates Applicable Law.
- B. If any provision contained in this Code of Conduct is ambiguous—i.e., capable of being given one or more reasonable interpretations—and one or more reasonable interpretations would render the provision unlawful or unconstitutional, the School District intends only those interpretations that are lawful and constitutional.
- C. **Conflict with Policy.** This Code and School Board Policy and Administrative Regulations are intended to be complimentary and what is required by one shall be deemed to be required by all. If there are any irreconcilable conflicts between these terms and conditions of this Code and any provision(s) contained in any Policy, the terms contained in the Policy or the version of the Code last adopted by the Board shall control. If there are irreconcilable conflicts between any Administrative Regulations or the terms of any Policy or this Code, the terms of Policy and this Code shall control. For purposes of clarity, the terms of any Administrative Regulation shall never control over conflicting terms in Policy or this Code.

# Rights, Expectations & Responsibilities

It is the CASD Board's belief that as part of the educational process the students of the District should be made aware of their legal rights and also the legal authority of the Board to make or delegate authority to employees of the District to make rules and regulations regarding the orderly operation of schools.

## 1. Expectations and Responsibilities of Students (School Code §12.2) (School Board policy No. 235)

CASD's highest priority is its students' educational achievement. CASD believes that if we encourage all students to put forth their own best efforts in their education with honesty and integrity, all students can and will have the ability to academically succeed, giving them the opportunity to become productive, responsible, contributing members of our community.

A. All students are **expected** to:

- Support everyone's right to learn
- Choose ways to resolve conflict without fighting
- Accept others for who they are and respect differences
- Show proper respect for:
  - 1) Themselves
  - 2) Other students
  - 3) Adults
  - 4) School Property
  - 5) Personal property

B. Student responsibilities include regular school attendance, conscientious effort in classroom work and homework, and conformance to School Rules.

C. Students share with the administration and faculty a responsibility to develop a climate within the school that is conducive to wholesome learning and living.

D. No student has the right to interfere with the education of fellow students. It is the responsibility of each student to respect the rights of teachers, students, administrators and all others who are involved in the educational process.

E. Students should express their ideas and opinions in a respectful manner.

F. It is the responsibility of each student at school to conform to the following:

- Be aware of all rules for student behavior and conduct himself/herself in accordance with these rules.
- Students should assume that, until a rule is waived, altered or repealed in writing, it is in effect.

- Volunteer information in matters relating to the health, safety and welfare of the school community and the protection of school property.
- Dress and groom to meet standards of safety and health, and not to cause substantial disruption to the educational processes.
- Assist the school staff in operating a safe school for the students enrolled therein.
- Comply with applicable law.
- Exercise proper care when using public facilities and equipment.
- Attend school daily and be on time at all classes and other school functions.
- Make up work when absent from school.
- Pursue and attempt to complete satisfactorily the courses of study prescribed by the district.
- Report accurately in student media.
- Not use obscene language in student media or on school premises.

## **2. Expectations and Responsibilities of Parents/Guardians**

Parents are vital members of their child's academic team and can positively impact their child's school experience by being intentional about these three (3) key responsibilities:

- Initiate and maintain an active role in your student's academic life.
- Value and expect responsible behavior of your child. Lessons in responsibility mastered at home flow directly into a child's academic, social, and personal success in school.
- Advocate for your child and his/her education. Support and pursue your child's best interest at home and at school.

Parents are required to know and understand what the Code requires of our students and should familiarize themselves with the disciplinary measures that may result from violations of the Code. By supporting and reinforcing this Code, it cultivates a positive and safe learning environment for all students.

## **3. Expectations and Responsibilities of Teachers**

It is the expectation of the administration and the community that teachers exercise their professional skills in establishing and maintaining a respectful and dignified learning environment that supports the work of individual students and the class as a whole by:

Addressing both academic and social discipline in their classrooms. Teachers are encouraged to exercise their fundamental right of expecting students to be prepared for class and to be active learners during class time.

Instituting their own disciplinary consequences for classroom infractions in accordance with their team or department's approach and Board policy. This should be sufficient to correct the problem. However, continuous classroom misbehavior may require a discussion or conference with the Parent. If resolution of the problem is not found among the teacher, student, guidance counselor, Parent, team or department, then administrative intervention may be necessary. At this level of misconduct, teachers utilize their anecdotal records of the student's infractions, records of their own attempts at correction, and the involvement of the Parents as information in seeking further resolution.

#### **4. Expectations and Responsibilities of Administrators**

Administrators are charged with the responsibility of managing a safe and healthy environment for the District community of learners. Administrators set high expectations for all students to reach their highest potential, strive to reinforce each person's personal worth and dignity, and oversee implementation of the Code of Student Conduct.

While administrators are advocates for students and partners with teachers and Parents, the final authority regarding inappropriate behavior, violations, and disciplinary action rests with the building principal's authority. In response to certain actions or behaviors by students as set forth in the Code of Student Conduct, principals will refer disciplinary action to central administration for further action by the Board.

## **Student Discipline**

### **1. General Discipline Procedures** *(School Board policy [No. 218](#))*

Discipline should, as a minimum, have three objectives in mind:

1. PRESERVE the optimum environment in which to deliver instructional services.
2. RESPOND to disruptive influences with corrective measures in a firm and consistent manner while attempting to correct deviant behavior and keep disrupters in school.
3. REMOVE, as a last resort, the disrupters from the educational environment so that the majority may pursue their educational goals.

The Board finds that student conduct is closely related to learning. An effective educational program requires a safe and orderly school environment.

The Board shall establish fair, reasonable and nondiscriminatory rules and regulations regarding the conduct of all students in the school district during the time they are under the supervision of the school or at any time while on school property, while present at school-sponsored activities, and while traveling to or from school and school-sponsored activities. The Board shall adopt a Code of Student Conduct to govern student discipline, and students shall not be subject to disciplinary action because of race, sex, color, religion, sexual orientation, national origin or handicap/disability. Each student must adhere to Board policies and the Code of Student Conduct governing student discipline.

As present law now stands, it is the responsibility of the Board to continue with the education of the student until age 18, whether in the formal educational setting or in a setting outside that environment.

Serious offenses and repeated incidents which interrupt the learning of others and require large amounts of teacher time to be diverted from the class as a whole may signify the need for varied/increase support. These incidents will be referred to a building administrator and any serious disciplinary case in the elementary school shall be referred to guidance and other administrative personnel in an effort to ensure that students have the support needed to resolve the problems that interfere with learning.

The **Instructional Support Team** is available within each elementary school. The process used by the Instructional Support Team draws expertise to design and implement intervention strategies. Collaborative consultation offers a systematic method for data gathering and problem solving when challenged with the individual academic and behavioral needs of children. The Instructional Support Team, through leadership of the principal, has the responsibility to obtain consultative help from all staff who have received specialized intensive training.

In addition to the Instructional Support Team, the District employs a Home and School Visitor. The **Home and School Visitor** provides consultation and follow-up with families regarding the education, social, and emotional needs of students who are experiencing serious personal problems which significantly impede on the students' attendance and progress in school. The role of the Home and School Visitor encompasses efforts to serve as an advocate, liaison, case manager and consultant for students, parents, school staff, and community agency personnel. The Home and School Visitor is available to participate in various school conferences, make home visits, and initiate phone contacts with parents and agency personnel. The Home and School Visitor can provide information on issues of abuse/neglect, homelessness, compulsory attendance law, policy and procedures, parental involvement, family resource centers, parenting issues, utilization of student assistance program, community resources, etc.

## 2. **Positive Behavioral Interventions & Supports (PBIS)**

CASD advocates for the adoption and implementation of the PBIS framework in the teaching of social competencies and the development of safe and effective school environments.

PBIS is a broad range of systemic and individualized strategies for achieving important social and learning outcomes in school communities while preventing problem behavior. The key attributes of PBS include preventive activities, data-based decision making, and a problem-solving orientation.

There shall be positive behavioral support strategies available in each school. The staff in each school shall be responsible for being aware of said strategies and implementing them as appropriate and within the sound discretion of staff. However, no student may use the failure of having or implementing positive support strategies as an excuse or defense for violating this Code. Any student who violates this Code shall be subject to discipline in accordance with this Code notwithstanding the absence of behavioral support strategies or implementation of same.

### 3. **Corporal Punishment** *(School Code [No. §12.5](#))*

Corporal Punishment is prohibited. Notwithstanding anything in this Code to the contrary, teachers and school authorities may use reasonable force under the following circumstances:

1. To quell a disturbance;
2. To obtain possession of weapons or other dangerous objects;
3. For self-defense; or

## 7. Rules of Conduct/Infractions

In addition to using the Positive Behavioral Interventions & Supports framework to guide discipline in our classrooms and schools, CASD supports a progressive discipline approach that utilizes a continuum of prevention programs, interventions, supports, and consequences to address inappropriate student behavior and to build upon strategies that promote and foster positive behaviors.

When inappropriate behavior occurs, disciplinary measures should be applied within a framework that shifts the focus from one that is solely punitive to one that is both corrective and supportive. The District has identified specific infractions along with a level of severity designation for each to serve as guidelines.

Repeated infractions may move from one level to the next levels with more significant consequences for repeated or severe offenses.

The following is not intended to be inclusive of all acts of misconduct. Consequences listed may be subject to administrator discretion.

**A. Levels of Infractions.** Infractions are divided into the following four (4) levels:

- 1) **Level 1 Infractions.** Level 1 infractions are **minor incidents** that generally do not involve or affect other Persons. It includes student behaviors that impede orderly classroom procedures or interferes with school operation to a minor or negligible extent. Except where there are repeated instances of Level 1 infractions or other aggravating circumstances, Level 1 infractions generally do not result in suspension, in-school suspension or expulsion.
- 2) **Level 2 Infractions.** Level 2 infractions are infractions that are **more serious** than Level 1 infractions and that can be described as repetitive or frequent or that cause a serious disruption to the learning climate of the school or affect other persons. Except where there are repeated instances of Level 1 or 2 infractions or other aggravating circumstances, Level 2 infractions generally do not result in suspension, in-school suspension or expulsion.
- 3) **Level 3 Infractions.** Level 3 Infractions are serious infractions which result or could result in the violation of the legal rights of other, violence to another person, damage or destruction of property, conduct that poses a direct threat to the safety of others in school, or conduct that may constitute a criminal offense where exclusion from school would be justified. Level 3 Infractions can also include repeated Level 1 or Level 2 Infractions where progressive discipline does not appear to be working.
- 4) **Level 4 Infractions.** Level 4 infractions are infractions that are serious, perhaps criminal in nature, where expulsion from School is justified or intervention by law enforcement is justified. Level 4 Infractions can also include repeated Level 1, Level 2 or Level 3 Infractions where progressive discipline does not appear to be working.
- 5) **Specific Infractions.** Notwithstanding anything herein to the contrary, certain infractions, such as with regard to violations of the dress code, carry specific consequences, absent aggravating circumstances.

**B. Prohibited Conduct; Guidance as to Levels of Infractions.** The conduct described in the following chart is prohibited At School or, where indicated, Outside-of-School. Conduct outside of school that is prohibited will not consist of a suspension, in-school suspension, or expulsion, unless Applicable Law allows it. To the extent that conduct outside of School is prohibited, and Applicable Law does not allow a suspension, in-school suspension or expulsion, the student may be subject to the other forms of

discipline as may be allowed by Applicable Law. Notwithstanding anything herein to the contrary, any student who violates any of the rules is subject to discipline, including possible expulsion. As a guide, the following chart sets for the minimum infraction level a violation would justify, absent any relevant mitigating or aggravating circumstances.

The following examples of impermissible conduct **are not intended to be all-inclusive**. At the District's discretion, any violation of the School District's policies or any conduct considered inappropriate or unsatisfactory may subject the student to Discipline, including expulsion.

The District reserves sole discretion whether to apply progressive discipline in any given situation. The Building Administrator reserves the right to place students on Progressive Discipline for frequent repeated disciplinary code violations. Progressive discipline may include, but is not limited to Detentions, In School Suspensions, Out of School suspensions and referrals for Expulsion from School. Parental notification will be made by phone and mail when such a decision is made.

Items with one asterisk (\*) indicate an automatic referral to school board hearing.
